## SPALDING'S SCORE BOOK.

Spalding's new design Pocket and Club Score Books were first brought out in 1877, and they at once jumped into a popularity and reached a sale never before accorded a similar work. They are adapted for the spectator of ball games, who scores for his own amusement, as well as the official club scorer, who records the minutest detail. By this new system, the art of scoring can be acquired in a single game.

Full instructions, with the latest League rules, accompany each book.

### WHAT AUTHORITIES SAY OF IT.

WASHINGTON, D. C., JAN. 3, 1878.

Messrs. A. G. SPALDING & BROS., Chicago, Ill.  
Gentlemen—I have carefully examined the Spalding Score Book, and, without any hesitation, I cheerfully recommend it as the most complete system of scoring of which I have any knowledge.

Respectfully,  
N. E. YOUNG, Official Scorer Nat'l League P. B. B. Clubs.

The new system of score books just issued by A. G. Spalding & Bros. of Chicago, are the nearest thing of the kind we ever saw. Every lover of the game should have one. They are simple in their construction and are easily understood.—*Cincinnati Enquirer, April, 1877.*

The *TRIBUNE* has received from A. G. Spalding & Bros. 118 Randolph street, a copy of their new score book for use this year. The book or system is so far in advance of anything ever before brought out in the way of simplicity, convenience and accuracy, that it seems wonderful that it was not thought of years ago. The new style will be in universal use before the season is half through.—*Chicago Tribune, April, 1877.*

A. G. Spalding, Captain of the Chicago White Stockings, has just brought out a new score book, which will meet with the unqualified endorsement of everybody who has ever undertaken to score a game of base ball. They are of various sizes, to meet the requirements both of the spectator who scores simply for his own satisfaction, and for official scorers of clubs. The novel and commending feature of the book is the manner in which each of the squares opposite the name of the player is utilized by a division which originated with Mr. Spalding. Each of these squares is divided into five spaces by a diamond in its centre, from the points of which lines extend to each of the four sides of the square. Each of these spaces is designed for the use of the scorer according to marks and signs given in the book, by thus dividing the squares into spaces he scores without the liability to make mistakes. The League rules of scoring are printed in the book.—*N. Y. Clipper, April, 1877.*

# 'SPALDING'S TRADE-MARKED BATS.

Much of a ball player's success in batting depends on the bat he uses and to get hold of a finely balanced, well proportioned and thoroughly seasoned bat, is a matter of great importance to one who would become a successful batter.

During the past few seasons our trade-marked bats have gradually grown in popularity, until now they are in general use by all the prominent professional and amateur players in America. Over five hundred cords of timber is required to supply the annual demand for these bats and to insure the stock properly seasoned the above quantity was cut and dried up at our factory early in the spring of '88, to be ready for this year's trade. Each bat is turned by hand, after the most approved and varied models, and if found to answer the requirements as to weight, size, length, etc., the trade-mark is stamped on each bat to insure its genuineness. We point with much pride to the handsome testimonials given these bats by the leading players of the country, as printed on the adjoining page.
